The Undersigned Agrees:

1. All installations and use of water from the proposed water service line are subject to M.U.D. Water Rules & Regulations and all water rate schedules of M.U.D., as may be amended from time to time.
2. All work shall be done by or under the direct supervision of a licensed master plumber.
3. The installation is subject to inspection by M.U.D. as provided by M.U.D.'s Water Rules & Regulations.
4. No modification, alteration, extension, or repair of the water service line shall be made without a permit from M.U.D. and shall comply with M.U.D. Water Rules & Regulations.

When a permit is issued to tap a M.U.D. water main, the permit shall be revoked if the tap is not made within 12 months of the date the permit was issued.

5. After the water main is tapped, no water shall be used from the water service until a meter is installed and all fees are paid, including water for construction purposes.

If new meter installation cannot be completed within 45 days after the tap is made, the curb stop valve shall be closed and wedged and the account shall be placed in the name of the builder or owner shown above.

This party shall be responsible for the water service until the account is transferred to a new party.
