

Compressed natural gas (CNG) fueling stations celebrate Earth Day with 99 cents per gallon fill ups

For immediate release, Omaha, Neb. — On Earth Day, Monday, April 22, drivers of natural gas fueled vehicles can fill up their gas tanks for 99 cents per gasoline gallon equivalent at six regional stations, including:

- I-80 Fuel , 5318 L St., Omaha, NE 68117
- Metropolitan Utilities District (M.U.D.), 2614 S. 64th Ave., Omaha, NE 68106
- Trillium CNG™, 13233 Cornhusker Road, Omaha, NE 68138
- Lincoln Airport Authority, 3520 NW 36th St., Lincoln, NE 68524
- Stirk CNG/Sapp Bros Travel Center, 6001 Cornhusker Hwy., Lincoln, NE 68507; 517 23rd St, Columbus, NE 68601

The public stations use Earth Day to raise awareness of CNG as an alternative transportation fuel to gasoline or diesel. In 2018, these Nebraska stations collectively displaced over 1 million gallons of petroleum, which eliminated 2,400 tons of carbon dioxide emissions and displaced approximately 24,000 barrels of oil.

“Accessibility to public fueling options enables CNG to be a competitive fuel choice to bring real economic and environmental benefits to fleet owners,” said Kyle Bowman, business development specialist for M.U.D. “CNG provides the opportunity to use clean, affordable and American fuel.”

M.U.D. operates more than 180 CNG fleet vehicles, including service vans, sedans, pick-ups, medium-duty, crew and dump trucks.

To learn more about CNG fleet opportunities contact Kyle Bowman at 402.504.7185 or visit M.U.D.’s website.

**People are encouraged to take photos of filling up on Earth Day and use the hashtags: #CNG #EarthDay2019 to tag photos on Facebook, Twitter and Instagram.

About Metropolitan Utilities District of Omaha:

M.U.D. provides safe, reliable and cost-effective natural gas and water services to our community. We serve drinking water to 216,180 customers in the metropolitan Omaha area and maintain 27,000 hydrants for fire protection. The District’s water meets or exceeds all federal and state standards for drinking water. The District also is the fifth largest public gas utility in the United States, serving natural gas to 231,012 customers. We are a public utility and proud to be customer-owned. The District is governed by a board of seven directors, elected by our customer-owners.
