We are following up on our previous communications to remind you about your responsibility and coverage that is available for your sewer/septic line.

Because the exterior sewer/septic line on your property belongs to you, you are responsible for paying for any needed repairs to this line. Your sewer/septic line may weaken and break over time due to damage caused by normal wear and tear, including aging and ground shifting. Because this line is buried underground on your property and is typically not inspected, a failure is almost impossible to predict. In addition, pipe materials vary by region and date of installation. Materials such as cast iron, galvanized steel, copper and PVC deteriorate at different rates.

Your property at <<Serv\_Address1\_XXXXXXX>> is not covered with Exterior Sewer/Septic Line Coverage from HomeServe. Without this optional coverage you may be faced with thousands of dollars in bills to replace the line on your property in the event of a breakdown. Receive up to \$10,000 per service call (30-day waiting period includes a money-back guarantee) with multiple service calls annually for covered repairs. This protection covers all types of pipe material regardless of how old it is. For just \$8.99 per month, you can avoid paying for the costs of covered repairs to your exterior sewer/septic line.

IMPORTANT

Take action to help protect your sewer/septic line and finances. Complete and return the enclosed form or call 1-833-397-0296.
