

48TH ST CLOSURE

“Q” ST TO HARRISON ST

STARTING
SEPTEMBER 30, 2024
FOR APPROX. 3 WEEKS

Update 9/16/2024. Gas and water mains in this area are required to be relocated due to the City of Omaha’s 48th Street Improvements project. The gas main work is completed. Water main and street improvement work is concurrently being performed by the City of Omaha and its contractor, Hawkins Construction Company. For more information on the City’s project, please visit: <https://www.keepomahamoving.com/projects/48th-street-improvements>.

M.U.D. needs to perform work on the 54” water main in 48th St and replace a hydrant in the area. There are no anticipated water service interruptions during this work. Your U.S. mail and garbage/recycling services should not be interrupted.

For questions and concerns, please reach out to Tina Gutschenritter (402) 504-7770 or email CustomerSuccessTeam@mudnebr.com.

We appreciate your patience as we work to invest in your neighborhood.

WILL USE HYDRANTS TO DRAIN WATER FROM THE 54” WATER MAIN BEGINNING SEPTEMBER 30

50th St and “L” St
49th St and “P” St
49th and “Q” St
48th St and Blood Creek

LOCAL RESIDENTS USE “W” AND POLK TO ACCESS HOMES

S 48TH ST

M.U.D. WORK AREA

HARRISON ST

August 2023

GAS INFRASTRUCTURE RELOCATION

This project may require the replacement of the main, service and meter to your home or business and moving any inside gas meters to the outside of homes or businesses – all at no cost to you.

WHY

M.U.D. is required to relocate the gas and water mains prior to the City of Omaha's 48th Street Improvements project – gas mains will be relocated first. For more information on the City's future project, please visit:
<https://www.keepomahamoving.com/projects/48th-street-improvements>

WHEN AND HOW LONG

Work will begin soon and continue into the first half of 2024, barring any unplanned delays.

WHAT YOU MAY EXPERIENCE

PRELIMINARY WORK marking gas services in the area

One of our technicians will be walking around the neighborhood flagging gas services.

DURING THE PROJECT gas main installation and reconnects

- Temporary gas service interruption(s). You will be notified prior to any interruption. A technician from M.U.D. will need to access your home to relight gas pilots after the interruption.
- Temporary traffic lane restrictions – for the safety of you and our crews, please slow down when driving in the area.
- A series of large excavation pits to access the existing gas mains will be necessary.
- Trucks and equipment, gas pipe, safety fence and cones.
- *After the gas mains have been installed*, work will begin to reconnect all homes and businesses to the new mains – this work will result in a hole near each home or business to make the connection.
- Streets, sidewalks, lawns, and landscaping may be affected; however, all will be restored at the end of the project and as weather permits

Q Street will experience a closure from 45th St to 48th St for approximately six weeks, barring any unplanned delays. However, access to all local properties will be maintained.

APPOINTMENTS requiring access to your home or business

- May require up to three (3) appointments—the first to coordinate the location of the new gas service and meter, and the others to:
 - reconnect your gas meter (M.U.D.)
 - relight gas pilots in your home or business (M.U.D.)
 - inspect sewer lateral service (Backlund Plumbing or Zoom Drain will contact you—the required inspection work is no cost to you)
- **You will be contacted** in the future to schedule these appointments. We strive to work with your schedule and do what we can to find a time that is convenient for you.
- This work may result in a brief planned temporary interruption of your gas service. A typical interruption could be 4 hours or less. Any appliance in your home or business that uses gas will not be available during the interruption (i.e., stove, water heater, furnace/boiler, etc.). Gas pilots will be relit by a M.U.D. technician after the interruption.

IMPORTANT TO NOTE

Scheduling your appointment(s) is critical so work in your area can proceed to completion and your service is not interrupted. We must have all gas services switched to the new main in a timely manner before taking the old main out of service. We appreciate your cooperation.

PPE

All staff have access to personal protective equipment and will use this equipment upon request.

FUTURE WATER MAIN WORK

Important to note: M.U.D.'s water main work (R2091) will be performed under a joint contract with a City of Omaha contractor in this same project area. This work is scheduled for later in 2024, barring any unplanned delays.
